This paper applies the concept of a Capability Maturity Model to Training and Education – the realization that how you design and deliver training (your process) is as important to your success as what you deliver (your product). It is based largely on the classical CMM and CMMI developed by the Software Engineering Institute (SEI), but it doesn't stop there. **Lean Manufacturing Improvements: Results & Case Studies** “The results from a one week improvement event led to as much as four times the previous throughput measurements in our factory! Outstanding coaching and direction allowed employees at all levels to quickly understand the basics of lean manufacturing and act on them right out of the gate.
